

## Footsteps in the Sand

I took a walk  
Down on the beach  
To set a troubled mind at ease  
And I've found  
Good times are like the tide  
Because they come and then they leave

***The more I think about you  
The more I seem to find  
That just like these footsteps in the sand  
You left a mark behind  
You left a mark behind***

You see I've tried  
To find a reason  
But the hardest strives been not to grieve  
Now today  
My hearts alone again  
And I'm drifting out to see

***The more I think about you  
The more I seem to find  
That just like these footsteps in the sand  
You left a mark behind  
You left a mark behind***

And maybe it's just for a season  
That I have to feel this pain  
But we wouldn't be all who we are  
If life as easy all the way

***And the more I think about you  
The more I seem to find  
That just like these footsteps in the sand  
You left a mark behind***

***(repeat)***
