

You've got every reason to be mad
Finding things around you going bad
I wish that I could have got it right
The first time

Please give me a second grace
Because I don't ever wanna I lose this place
Have I fallen too far this time
Just to let it go

I used to find peace by the river
I used to find peace by the sea
I used to find peace when I'd stay
Here with you

Do you see that things are moving fast?
Sitting, wishing, dreaming of the past
Do you hope to find a new way
Just to please your soul?

I know it's hard not to cry
But one day you are gonna fly
If you need a star to light your way
I will be there yes I will

You will find peace by the river
You will find peace by the sea
You will find peace if you stay
Here with me

We will find peace by the river
We will find peace by the sea
We will find peace if you stay
Here with me
Here with me
Here.....
